

### BENEFITS

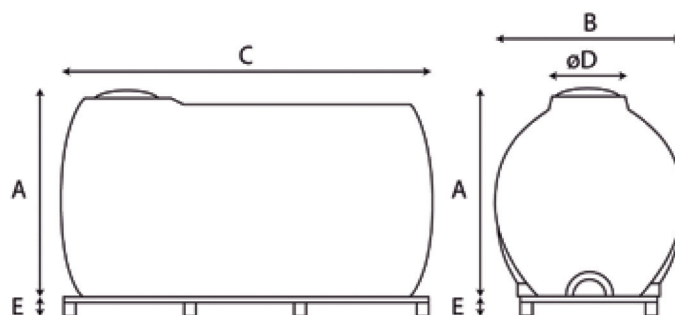

- Tank molded in one piece, without bonding or welding, therefore perfectly waterproof
- Excellent shock resistance, high strength
- Smooth inner surface prevents deposits and makes cleaning easier
- Niche in the lower part before protecting the valve

### DESCRIPTION :

- Rotation-molded flat-bottomed single-piece tank made of UV stabilized high density polyethylene
- Biennial guarantee. The tank has a 20 year anti-corrosion warranty.
- Designed for storage of all food and chemical products (see compatibility table)

### PURPOSE :

- Storage tanks have been designed for all problems of air storage and intra-site liquid transport.
- The surface of the support must be flat and solid.
- Very simple maintenance, a rinse allows to clean the tank.
